INTERNSHIP/TRAININGS

ICT Intern - Accounts Section

Public Trustee Department, Colombo 07

August 2023 - February 2024

- Assisted in accounting-related ICT tasks
- Supported preparation and maintenance of financial records and final accounts
- Worked with data entry, validation, and report generation in SAP

PROFESSIONAL QUALIFICATIONS

NVQ Level 4 (ICT Technician) - TVEC, Sri Lanka

2024

Skills gained: computer hardware, networking fundamentals, ICT maintenance, system support

Business Level II - CA Sri Lanka

2023

Completed Level II with foundational knowledge in accounting standards, auditing, taxation, and financial management

Passed Finalist - AAT

2021

Completed all required examinations up to finalist level, gaining strong knowledge in financial accounting, management accounting, and business economics

EDUCATION

BSc in Applied Data Science Communication

2024 - Present

General Sir John Kotelawala Defence University (KDU), Ratmalana

GCE Advanced Level - Commerce Stream

2020 - 2022

Viharamahadevi Balika Vidyalaya

Subjects: Accounting – A, Economics – A, Business Statistics – B

SKILLS AND INTERESTS

Interests Data Analytics, Data Visualization, Business Analytics, Financial Statement Analysis, Learning new technologies

Skills Teamwork, Time management, Communication, Problem-solving, Data Interpretation

PROJECTS

AI-Powered Skincare Advisor Tool

2026

Developed an AI-powered Skincare Advisor web application using Python, Streamlit, and the Groq API (LLaMA 3), featuring image-based skin analysis, structured skin profile outputs, and a context-aware chatbot with session memory. Demonstrates practical skills in LLM integration, prompt engineering, and building interactive AI applications.

Policy Summarisation and Draft Generation Tool

2026

Developed a Python-based web application using Streamlit to summarize documents and generate policy drafts using NLP techniques and AI models.

Climate Trend Analysis, Rainfall Variability, and Temperature Forecasting using Time Series Models

2026

An analysis of UK climate data (2015–2025), focusing on temperature trends and rainfall variability. Applied data preprocessing, EDA, and visualization techniques using Python. Developed predictive models using Linear Regression and ARIMA to forecast future climate patterns.

Advanced SQL, Cloud Databases and Power BI Analytics on Real-World Government and Global Data

2025

Explored real-world UK migration, Manchester EPC, and UN SDG datasets using SQL Server and Power BI. Developed advanced SQL queries, data models, and interactive dashboards with DAX. Presented findings through professional reports and video demonstrations, highlighting data-driven decision-making and analytical proficiency.

Heart Disease Prediction using Machine Learning

2025

Worked on a machine learning project to predict heart disease using clinical data. Applied models such as Logistic Regression, Random Forest, and XGBoost, and analyzed important factors affecting prediction. Used data preprocessing, exploratory data analysis, and SHAP techniques to improve model understanding and accuracy.

Road Safety Accident Analysis Dashboard using Power BI

2024

Developed an interactive Power BI dashboard to analyze road safety incidents using real-world data. Created data models and visualizations to track accident trends by location, year, severity, and light conditions.

EXTRA-CIRRUCULAR

- Awarded as **President Scout**
 - Awarded as **Best Girl Scout**, Viharamahadevi Balika Vidyalaya
- February 2022

October 2018
